SUMMARY

Full-stack AI engineer specializing in production GenAI applications. Built and deployed BOS SaaS — a full-stack AI business platform (Next.js, LangChain, Postgres) — live at bos-saas-ai-web.vercel.app. Early adopter with hands-on experience across 200+ AI products (LLMs, voice agents, image gen, chatbots, automation). 3+ years across digital marketing, e-commerce operations, and business development. Comfortable owning a feature end-to-end: schema design, API, frontend, deployment. Open to GenAI Engineer, AI Product Engineer, and full-stack (AI-focused) roles.

TECHNICAL SKILLS

AI / LLM: LangChain, OpenAI API, RAG, FAISS, Embeddings, Prompt Engineering, Vector Databases, n8n

Frontend: Next.js 14, React 18, TypeScript, Zustand, Tailwind CSS

Backend: Node.js, Next.js API Routes, Python, REST APIs

Database / ORM: PostgreSQL, Prisma, SQLite

Deployment: Vercel, Render, Streamlit Cloud

Tools: Git, GitHub, VS Code, Loom, Google Ads, Instagram Ads, Amazon/Flipkart/Myntra seller tools

PROJECTS

BOS SaaS — AI-Powered Business Operating System | Live · Vercel | Nov 2025 – Present | Solo

Stack: Next.js 14, TypeScript, Prisma, PostgreSQL, LangChain, OpenAI API, Zustand, Tailwind, Vercel

- Designed and shipped full-stack AI SaaS: CRM, task management, analytics, WhatsApp automation, and AI assistant
- RBAC with 3 roles (Admin, Manager, Staff); LangChain + OpenAI assistant querying live PostgreSQL in plain English
- PostgreSQL schema (8+ tables) with Prisma ORM — lead pipeline state machine, task relations, analytics; deployed on Vercel
- Live: bos-saas-ai-web.vercel.app · Demo: loom.com/share/8166af05340d43758d47d2880eca91e1 · Code: github.com/WSupRaz/bos-saas-ai

Multi-PDF AI Knowledge Base | Live · Streamlit

Stack: Python, LangChain, FAISS, OpenAI Embeddings, Streamlit

- RAG pipeline: ingests multiple PDFs, chunks with overlap, embeds via OpenAI, stores in FAISS
- Retrieval-augmented QA via LangChain's RetrievalQA chain · Code: github.com/WSupRaz/multi-pdf-ai-knowledge-base

Real Estate AI Chatbot | Live · Streamlit

Stack: Python, LangChain, OpenAI API, Streamlit

- Lead-qualification chatbot: captures intent, budget, location, timeline; LLM-driven flow adapts to prior answers
- Code: github.com/WSupRaz/real-estate-ai-bot

EXPERIENCE

Founder & Full-Stack AI Engineer — BOS SaaS (Self-employed) | Nov 2025 – Present | Bangalore (Remote)

- Architected and shipped BOS SaaS solo — CRM, tasks, analytics, WhatsApp automation, and AI assistant end-to-end
- All technical decisions: stack, schema, API, deployment strategy; continuously iterating on early-user feedback

AI Automation — CareerSathi Advisory (Freelance) | Dec 2025 – Mar 2026 | Bhopal (Remote)

- Built n8n-based automated lead generation, capture, and follow-up workflows for an education consulting business
- Reduced manual effort significantly using AI-driven systems for client communication and lead nurturing

AI Product Tester & Early Adopter (Independent) | 2022 – Present

- Tested 200+ AI products since GPT-3 era — LLMs, voice agents, image gen, chatbots, automation tools
- Submitted detailed feedback on failure modes, edge cases, and UX; insights directly inform how I build BOS SaaS

Digital Marketing Associate — Bhuwan Industries (Full-time) | Jan 2024 – Sep 2025 | Bhopal

- Managed Instagram & YouTube channels; drove brand growth via tailored content creation and strategic scheduling
- Listed products on Blinkit and rapid-delivery platforms; ran Google Ads and Instagram Ads campaigns

Business Development Executive — Propedge Realty | Mar 2023 – Jul 2023 | Pune

- Converted leads into sales in Pune's competitive housing market; generated leads via Housing.com, 99acres, Facebook & Instagram Ads

E-Commerce Associate — ANS Commerce (Full-time) | Oct 2022 – Mar 2023 | Gurugram (Remote)

- Managed listings, competitor analysis, and account health for Leema Smart & Milap Cosmetics on Amazon, Flipkart, Myntra

EDUCATION

BSc Mathematics — Barkatullah University, Bhopal | 2015 – 2018

Class XII — Kendriya Vidyalaya No. 3, Bhopal | Graduated 2015

Self-taught AI Engineer (2022 – Present) — LangChain, RAG systems, full-stack AI development
